Return rate by category, October

Grey bars are September, blue bars are October. A red bar marks an on-time drop of 10 points or more.

Recommended actions

#	ACTION	OWNER	WHEN	PRIORITY
1	**Compare on-time delivery percentage for the East region week by week** to track the sharp decline and identify cause	Operations Manager	this week	High
2	**Audit return reasons for Electronics orders in the South for the past month** high return rate may indicate product or fulfillment issues	Quality Assurance Lead	this week	High
3	**Set a cap on average discount for Wholesale segment at the previous month level** discount increase is eroding margin	Finance Director	by end of week	Medium
4	**Review gross margin drivers across all segments and report any cost spikes** overall margin fell and needs cause analysis	CFO	next week	Medium

How this report was produced

Accuracy checks

- All figures were calculated in code from the source data. The writer only received the finished figures.
- Every number in the text was checked against the figure it cites before publishing: **passed**.
- Statements citing figures: 10 of 10.

Data preparation

- 2988 rows received, 2967 used.
- Removed 18 exact duplicate rows.
- Standardised 25 'region' labels (spacing/capitalisation).
- Normalised 2 non-standard return flags (e.g. 'yes').
- Excluded 3 rows with missing dates or invalid quantities/ prices.
- 10 orders have no delivery time; they are excluded from delivery figures only.
